

Good morning,

I hope everyone enjoyed the beautiful weather this weekend! An activity that we do weekly is to write in a journal. If you have done something really neat or you are going to do something interesting, please talk to your child about it. Maybe he/she will choose to write about it in his/her journal. Having spoken to you about it first will help your child formulate his/her ideas.

**L.A.:**

- Home Reading everyday. Thank you to everyone who is taking the time to record the Home Reading that you are doing with your child. The students are loving getting the stickers for the reading that they are doing.
- We'll have an evaluation on Letter/Sounds this week. Reviewing and practicing them at home through games will be helpful.

**Math:**

- Playing games with numbers and practicing counting would help your child. The teen numbers are especially difficult for all of the students, however, numbers from 20 to 30 cause some issues as well. We'll continue working on them in class as well.
- Please send your child to school with a collection of 10 small things, in a bag with his/her name on it, preferably by Wednesday. We'll be using them to do a Math activity. I know this is slightly short notice and I apologize. The students took off with a concept at the end of last week and I decided to do this activity sooner than I had originally planned. Thank you for your help in making it fun for your child.

**General Information:**

- Friday September 29th is Orange Shirt Day, all students are encouraged to wear an orange shirt.

Have a good week,  
Ms. Reynolds
